

2024 Chicago AI Conference

June 25-June 26, 2024

About AI 2030

AI2030, powered by FinTech4Good, is an initiative aimed at harnessing the transformative power of AI to benefit humanity while minimizing its potential negative impact. By bringing together leading experts from government agencies, academia, industry, and various sectors, AI2030 seeks to shape global AI agendas and foster public-private collaboration in the responsible development and use of AI. The initiative is driven by the belief that individuals from all backgrounds and diverse perspectives can drive positive change and ensure AI's positive impact on society.

About the 2024 Conference Series

- Chicago AI Conference- June 25-26, 2024
- 1871 AI Summit- June 27, 2024
- Chicago Web3Con- June 28, 2024

The "Women in AI Leadership" Award is a pioneering recognition program dedicated to celebrating the outstanding achievements of women in the field of artificial intelligence (AI). This initiative shines a spotlight on the essential contributions and innovative work of female leaders who are steering the course of AI innovation, advancement, and application across various sectors worldwide. By acknowledging their accomplishments, the award aspires to motivate more women to embrace leadership positions within the AI domain, promoting a more diverse and equitable technological landscape.

Media Partners

Media Partnership Opportunities

- **Exclusive Access:** Get behind-the-scenes interviews with keynote speakers, panelists, and exhibitors. Early access to announcements and research findings presented at the conference.
- **Brand Visibility:** Your logo and company description featured on all conference materials, including the official website, promotional emails, press releases, and event signage.
- **Content Collaboration:** Opportunities to co-create exclusive content, such as articles, interviews, and video segments, with insights from leading AI experts.

We are looking to partner with:

- Technology and Business Publications
- Industry Blogs and Podcasts
- Academic Journals and Newsletters
- Mainstream Media Outlets with a focus on Innovation and Future Technologies
